Promo flier

Every printed promo is one sheet: lockup, kana headline, price, dish, then the fixed footer strip — delivery badge, stepped bar, payment marks, barcode, online-order QR.

A5 flier — the standard promo sheet

Order Delivery badge and contacts left · QR right · stepped bar · marks row

QR 28 mm minimum, always paired with the ONLINE ORDER label, ink on white

Marks One row, equal optical height, original colours, barcode closes the row

Bar Two heights, five steps, brand colours only, always full bleed

Dish photo One dish, shot from above on a plain surface, no competing type in frame

Primary lockup

Three tiers: wordmark, katakana rail with the accent dot, descriptor. The proportions are fixed — never space the tiers apart individually.

CLEAR SPACE

1X minimum on all sides. No graphic, photo or text enters that field.

MINIMUM SIZE

Print: 32 mm wide. Screen: 200 px. Below that use the compact version without the descriptor.

TRACKING

SHOSHO — 100 units (0.1em). Descriptor — 500 units. Never adjusted.

Mark system

Inverted on ink

DON'T

Never restretch the tiers or add shadows and outlines.

Compact — small sizes

DON'T

Never place the lockup on a busy photo without a cream or ink plate.

Seal — avatar, sticker

DON'T

Never recolour the wordmark blue or orange — it is ink or cream only.

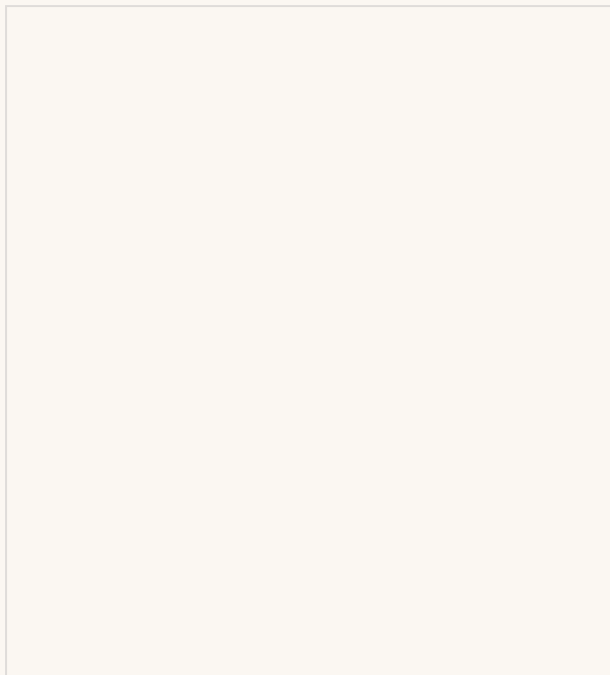

Katakana monogram

DON'T

Never add a fifth colour — the palette is closed.

Palette

Cream 70% of the surface, ink 20%, blue 8%, orange 2%. Promo pieces use the same colours at full strength — nothing outside this set.

PREMIUM SUSHI · BERLIN

No weights between 500 and 800 are used — the weight jump is what keeps the system tight.

JAPANESE — ZEN KAKU GOTHIC NEW

うどん

Large kana headlines carry the mood. Set them in ink, at least twice the size of the Latin subhead beside them.

炭火焼き鶏としいたけの旨み
まろやか卵の特製うどん

毎日食べたい、やさしいおいしさ。

Element kit

Six parts build every layout. Pick two per piece — three is already noise.

Dot grid 4×8 — rhythm, background, counters

Stone shapes — corners and photo framing

Kanji stamps — outline for quality, solid for life

Stepped bar — the promo signature, footer and offer strips only

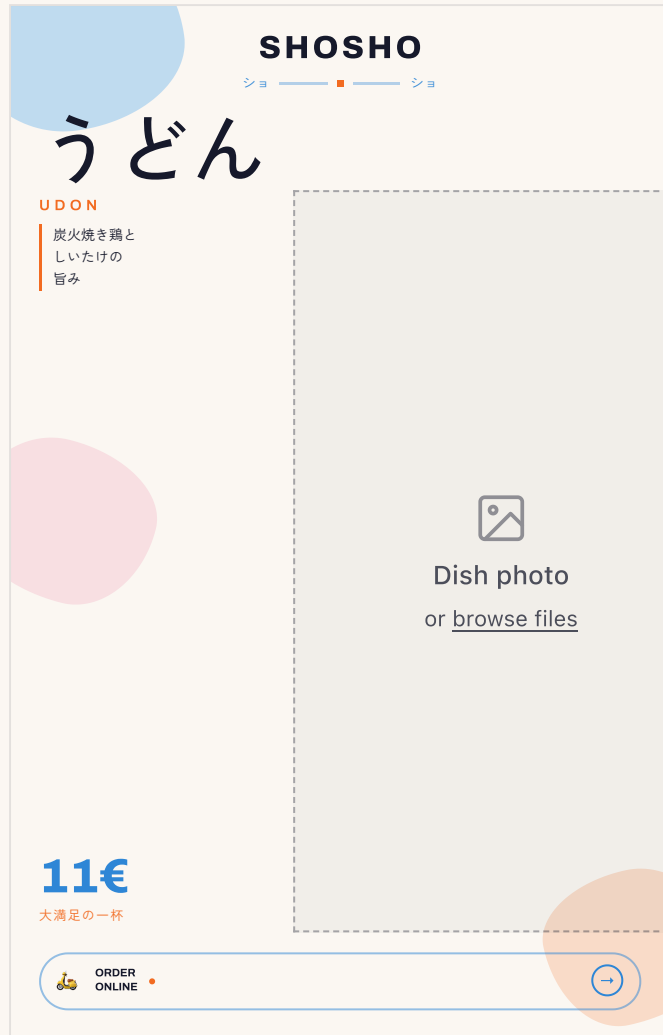

Pill CTA — the single call-to-action shape

Katakana rail — section divider, used apart from the logo

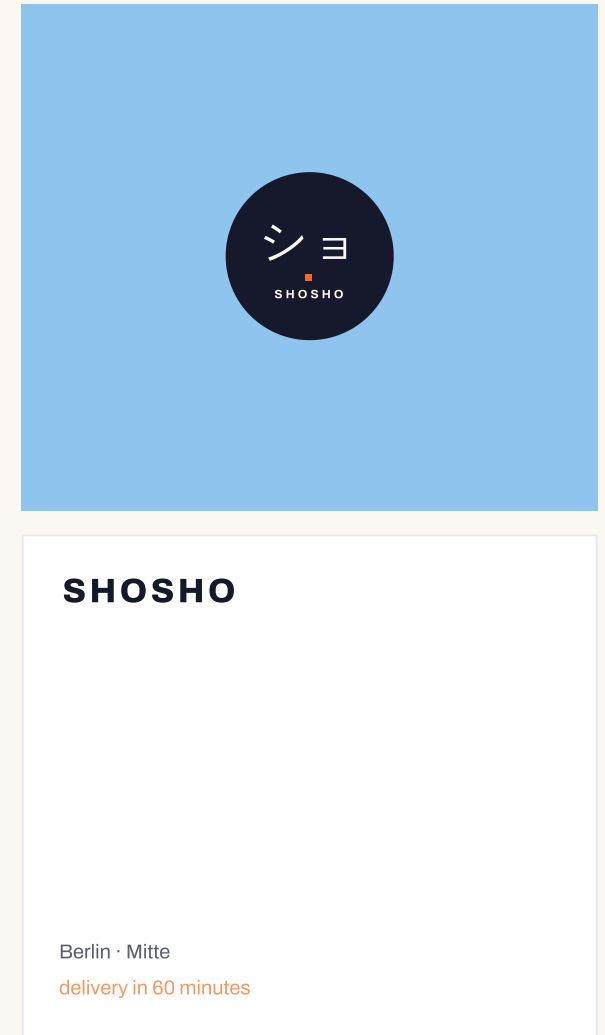

Carriers

Takeaway bag — inverted

Seal sticker and business card

Logo animation

Four keyframes, 1.3 s total. Motion starts at the centre orange dot and travels outward — each frame below is the state at the end of its step. Never rotate or scale the whole lockup.

01 Dot  0.0–0.3 s. The orange square appears at centre, scale 0 → 1, ease-out.	02 Rail  0.2–0.7 s. Two lines draw outward from the dot, then シヨ fades in.	03 Wordmark  0.5–1.0 s. Letters fade in from centre outward, 40 ms apart, 8 px rise.	04 Descriptor  0.9–1.3 s. Tracking opens 0.3em → 0.5em as it fades in. Then rest.
--	---	--	--

DURATION

Logo 1.3 s. Micro-interactions 120–200 ms.
Screen transitions 320 ms.

EASING

cubic-bezier(0.22, 1, 0.36, 1) in, (0.4, 0, 1, 1) out.
No springs, no bounce.

WHAT MOVES

Stones drift ±8 px over 12 s. Dot grids arrive as a wave. Photos never hard-parallax.
